All,

This is the first notice that I have received for any judicial panel charges levied against me. It is mind boggling the ineptness of Council 2. Please provide proof of delivery of these charges delivered to me by certified mail.

This is the same as what happened when the JPC for suspending myself and Andy Wojcichowski as Local 114 officers. When the trial was rescheduled and moved to Bellingham, we were never notified then either.

I cannot believe that ASCFME International and Council 2 continue to behave in this way. Where is the due process? I demand a continuance since I have never been notified and do not have the proper time to gather a defense.

Regards,
Shayla Francis
